

# Laboratory Clean Room Private

**Stage:** RIBA Stage 1 to Completion      **Project Value:** Undisclosed  
**Location:** London      **Completion:** September 2019  
**Sector:** Medical / Research

A challenging project with existing building restraints to meet and ensure the best possible solution for our client.  
  
 A strong client Team ethos delivered an exceptions project.  
  
 James Winsor  
 Quest Interiors

Quest were appointed to develop the client brief to realization. Being a clean room / laboratory project Quest assembled a strong professional design to ensure all the relevant certifications were met for the clients need..

Once on site the existing building offered some difficult situations to which a pro-active approach was required by the team to ensure the project was not delayed or the design affected. The end result was rewarding and delivered on all targets for the brief.
