

New Building Entrance Imperial College

Stage: RIBA Stage 1 to Completion **Project Value:** Undisclosed
Location: London **Completion:** 2018
Sector: Education Estates

Your organisation continues to provide an excellent service to both the Capital Projects and planning and the Facilities and Property Management visions on small building projects.

Imperial College
2018

Quest were appointed by Imperial College to develop the design and ensure the completion of a new interactive entrance lobby to the Advanced Chemical and Engineering (ACE) department within the Imperial College campus, London.

The location of this project was very much in the public domain, so strong client relationships and continuous communication channels were imperative to allow for a smooth, on time and on budget, completion – ready for the new term.
