Location: London **Completion:** March 2020
Sector: Science / Research

We would like to thank you for your constructive contribution Imperial over the last quarter and look forward to your continued beneficial engagement in the next.

Imperial College
April 2020

Quest were appointed by Imperial College to extent and develop a new centre for bio-inspired technology. The project was fast track design and build to which we brought together a strong professional team to deliver this project.

The Project included new research lab areas for 3D printers and a demountable clean room. Time was tight, and required a pro-active approach to ensure the deadline was met, with full support from the client team.
