

Laboratory Refurbishment Imperial College

Stage: RIBA Stage 3 to Completion

Project Value: N/A

Location: London

Completion: MARCH 2018

Sector: Science / Research

Thankyou to all the team at
Quest for a job well done !

Imperial College
April 2018

Quest worked with the client team from stage 3 to co-ordinate and deliver a new laser. The project was situated within the basement and was to ensure a high-quality space dedicated to producing extreme pressures, densities and temperatures in material for a variety of novel research purposes.

Quest refurbishment of the existing 1960's double height space was completed to a very high standard and within allowed budget.
