

New Theatre and Staff Welfare

Spire Healthcare

Stage: RIBA Stage 1 to Completion **Project Value:** Undisclosed
Location: Southampton **Completion:** 2018
Sector: Healthcare

18 weeks from initial site discussion to reality! Hard work and full commitment from Quest and Spire made the impossible possible. !

Spire Healthcare,
July 2018

Quest were brought in to develop and implement a key extension for Spire Southampton to create a new theatre, welfare facility and medical store. The project was extremely fast track due to the need to meet key dates and delivery of a new Da Vinci Robot from the NHS.

The project included new foundations and curtain walling to create the new areas with also new services. The site was located next to the existing operation rooms so noise and vibration had to be managed and site co-ordination at the highest quality to keep the hospital running.
