LSE
 November 2019

Quest where awarded this project to update and present a new Vegan Café for the university. The location was in the heart of the university campus and the space needed to relate to them and also meet the universities own goals on sustainability.

Being a retail project the timescales where fast with little time to over come issues which presented themselves on completion of the strip out. In unison with the client team the project continues and delivered to open to the users on time !
