

Case Study: SOAS University – High-Spec Toilet Refurbishments

Client: SOAS University of London

Location: Main Campus, London

Sector: Higher Education / Facilities Upgrade

Duration: Ongoing (Started December 2024)

Contract Type: Refurbishment & Fit-Out

Completion: Two Toilet Blocks Completed to Date

Project Overview

Quest Interiors was appointed by SOAS University to undertake a series of high-end toilet refurbishments across their London campus. As a new client, SOAS sought a partner who could deliver premium finishes while working sensitively within a live academic environment.

Scope of Works

- Refurbishment of multiple **toilet blocks** with a **high-spec design and finish**, tailored to SOAS's aesthetic and functional requirements.
- Installation of **bespoke joinery**, crafted on-site by Quest's own carpentry team to bring the design vision to life.
- Upgrades to **fixtures, finishes, and lighting**, ensuring durability and a luxury feel.
- Careful **site management** to minimise disruption during term time, including dust control and discreet presence in high-traffic areas.

Challenges & Solutions

The works commenced during the 2024 Christmas break and continued into the academic term. Quest Interiors worked closely with SOAS facilities and building users to phase the works and maintain access. A strong emphasis was placed on cleanliness, containment, and communication to ensure a smooth delivery.

Outcome

Two toilet blocks have been successfully completed to date, with further phases planned. The quality of finish and attention to detail has been well received by SOAS staff and students, reinforcing Quest Interiors' reputation for delivering premium refurbishments in complex, live environments.
