

## Case Study: Imperial College – Main Entrance Refurbishment

**Client:** Imperial College London

**Location:** Exhibition Road, Main London Campus

**Sector:** Higher Education / Science & Research

**Duration:** Summer Break (Tight Programme)

**Contract Type:** Design & Build

**Completion:** On Time and within budget

### Project Overview

Quest Interiors was appointed to **update and replace the dated main entrance** to Imperial College's South Campus on Exhibition Road. This high-profile project required a **full design and build solution**, including planning and execution, to deliver a modern, welcoming gateway for students and visitors.

### Scope of Works

- Complete **design and build** of the new entrance, from concept to handover.
- Replacement of outdated entrance with a **contemporary, durable design** aligned with the college's brand.
- Creation of a **temporary entrance** to maintain safe access for students and the public during works.
- Coordination of **planning approvals** and compliance with strict safety and security standards.
- Implementation of **robust site management** to shield works from public view and minimise disruption.

### Challenges & Solutions

- **High-profile location** demanded exceptional programme control and discreet execution.
- **Tight summer schedule** required accelerated planning and delivery to meet the start-of-term deadline.
- Temporary entrance ensured **uninterrupted access** for students and visitors throughout the project.

### Outcome

The project was successfully completed **on time and within budget**, delivering a **modern, functional, and visually striking entrance** that enhances the campus experience. Quest Interiors demonstrated its ability to manage **complex, high-profile works** under challenging conditions.
